These classes encompass a range of learning levels, starting from foundational concepts in our basic classes to advanced techniques focusing on logic and strategy in our specialized sessions. Our goal is to instill confidence and readiness in every student.

- In these classes, students undergo mock interview tests, allowing them to experience real-life scenarios and sharpen their responses. These mock interviews are recorded for detailed feedback and review. Importantly, we involve parents in the process by inviting them to observe the classes. They act as evaluators, providing valuable insights on whether their child is prepared to progress or if further learning and practice are needed.
